

Dear Fallon Clinic Patients:

I am writing to inform you of some important changes at our Grafton medical office. **Effective September 30, 2010, Dr. Paul J. Bradley and Dr. Lester Mietkiewicz will be leaving Fallon Clinic.** Fallon Clinic will no longer be seeing patients at our Grafton site after September 30. I realize that it can be very concerning when a trusted physician moves on, but I want to assure you that we have many wonderful, highly qualified physicians at Fallon Clinic who are eager to provide your medical care. Some are established Fallon Clinic doctors, while others are joining our medical team in the coming weeks or months. Below this letter, I have included a list of physicians with whom you can register. We have information on some of these doctors on our website under the "Find a Physician" tab at www.fallonclinic.org.

I urge you to consider carefully the benefits of staying within the Fallon Clinic healthcare system. If you choose a new Fallon Clinic primary care physician, your Fallon Clinic specialist(s) can still readily view your medical record through our state-of-the-art electronic medical record (EMR), which is among the most advanced systems in the country. In addition, as a Fallon Clinic patient, you can use MyChart, which allows you to view lab results, request non-urgent appointments, view your medical information and even send messages to your healthcare team, 24 hours a day from any computer with Internet access.

If you would like to remain with Fallon Clinic, I encourage you to contact our Central Registration department at (877) 221-8500, and we will help you choose a new physician. To ensure that there is no disruption in your care, I ask that you call and ***make these arrangements as soon as possible.*** Most insurance companies will allow you to continue seeing your Fallon Clinic specialist(s). If you register with a new primary care doctor, please check with your insurance company to understand what, if any, new authorizations are needed for your ongoing specialty care.

If you choose to leave Fallon Clinic, you may request a copy of your medical record. In order for us to release your record, you must sign a consent form. You can find this form at www.fallonclinic.org under the "For Patients" tab (click on "online forms"). There is a \$25.00 fee to process this request, so you will receive an invoice from us. You can also stop into any Fallon Clinic site to complete this form.

On behalf of us all at Fallon Clinic, it has been an honor to serve you, and we hope to continue on as your care providers. If you leave the Clinic and feel dissatisfied with this choice, we are happy to welcome you back!

Sincerely,

Robert Cavanaugh, MD
Site Chief, Grafton & Millbury
